

Hey!!! Did you know your next career move could be right here?! Now is the perfect time to join the best team in the high performance coatings industry.

Jet-Hot is looking for Maintenance Assistant to join our Maintenance Team.

But, let's start with the really important stuff...

Joining our team comes with many perks, including:

- Competitive hourly rates
- Attendance bonus program
- Referral Bonus Program for team members who help us promote and recruit
- 1st shift. Standard 40hrs worked 8am to 5pm Monday to Friday
- Bi-Weekly pay cycle \$\$\$
- 8 paid holidays yearly, plus PTO/Vacation time
- We have a comprehensive benefits package, including Medical, dental, Vision, LTD and STD and company paid Life Insurance
- We have a great 401k program with a generous company match
- Employee discounts on coating for your hot rod, motorcycle or other toy that needs the protection and performance only Jet-Hot can offer

So what will you be doing?

As our Maintenance Assistant, you will be working under the supervision of our Maintenance Technician. You will have the opportunity to perform a variety of tasks, including:

- Safely providing maintenance support to the manufacturing facility.
- Diagnose, maintain, repair, replace and install industrial equipment and machines.
- Clean and lubricate machinery, performing basic diagnostic tests, checking performance and test machine parts.
- Use understanding of equipment, technical manuals and careful observation to discover the cause of any breakdowns.
- Working with manufacturing personnel to resolve production needs.

What are we looking for?

Ideal applicants will:

- Have mechanical and electrical knowledge, be able to troubleshoot and resolve manufacturing constraints, as well as being responsible for preventative maintenance processes.
- Be able to weld and fabricate parts.
- Be able to read electrical schematics and mechanical drawings.
- Be physically capable of climbing ladders, elevated platforms.
- Practice proper and safe operation of powered hand tools, unpowered hand tools and machine shop equipment used in expected normal course of duties.
- Understand and be able to maintain structures and grounds of manufacturing facility.
- Be capable of maintaining records of preventive maintenance tasks.
- Have some prior maintenance technician experience, preferably in a manufacturing setting.

If this sounds like the opportunity you are looking for, let's talk about your future today!
